This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

SINKING FUND FOR THE REDEMPTION OF THE CITY DEBT, NO. 2.—the general election, held November 4, 1884, an amendment to the ite Constitution, restricting municipal indebtedness, was adopted by a

vote of the people, to take effect January 1, 1885. Said amendment (section 2 of Article VIII.), among other things, provides:

"Nor shall this section be construed to prevent the issue of bonds to provide for the supply of water, but the term of the bonds issued to provide for the supply of water shall not exceed twenty years, and a sinking fund shall be created on the issuing of said bonds for their redemption, by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at their maturity."

At a meeting of the Commissioners of the Sinking Fund, held February 6, 1885, it was

"Resolved, That in conformity with the foregoing provisions of law and the State Constitution, a sinking fund shall be and is hereby created for the redemption of bonds hereafter issued for the supply of water, by raising annually by tax a sum sufficient, with the accumulations of interest thereon, to meet and discharge the amount of said bonds at their maturity."

To meet at maturity the bonds issued for water supply in 1885, and each year following, an amount was raised by tax in 1886 and succeeding years, as required, and the amounts so raised were deposited in the Sinking Fund for the Redemption of the City Debt.

And on January 16, 1889, the Commissioners of the Sinking Fund adopted the following resolution:

"Resolved, That the Comptroller be and is hereby authorized and directed to separate the "amounts of annual installments raised by tax for the payment, at maturity, of bonds issued for the "supply of water, pursuant to section 11 of Article VIII. of the State Constitution, to be kept as a "distinct fund from the general account, and designate the securities in which the moneys are "invested, to be reported from time to time, to this Board."

In compliance with this resolution the following statement was prepared showing the amount of annual installments raised by tax for the payment of bonds issued since January 1, 1885, for the supply of water, with the accumulations of interest thereon up to October 1, 1889, computing interest on investments at the rate of three per cent. per annum, together with designations of the stocks placed in the special Sinking Fund, designated as "Sinking Fund for the Redemption of the City Debt No. 2," and by direction of the Comptroller the necessary entries as of October 1, 1889, were made on the books in the Finance Department to carry the foregoing resolution into effect.
